rejoicing among the passengers over the news of their probable release, though some fear that the reported cases of cholera in New York city may delay them further. Yesterday Colonel Austin received a dispatch at Babylon from Goveror Flower, saying he did not see any particular reason for keeping the troops at Babylon, and if Colonel Austin deemed it safe to do so he could withdraw the troops at any time and return to the city. It is probable that all the troops will return home by tomorrow. At noon a detachment of forty men of the Thirteenth Regiment arrived from Brooklyn. Colonel Austin told them that their services were not needed. In the forenoon, while Colonel Austin was waiting for an answer to a telegram sent Governor Flower regarding the removal of the troops he found it necessary to call for a corporal and guard before he could get the telegraph operators to answer civil questions. It had the desired effect, and afterwards the Colonel's messages were given proper attention. While Colonel Austin was standing outside of the telegraph office this morning a half intoxicated bay man began to abuse the newspaper men, claiming that they were responsible for the trouble, and that they had greatly misrepresented the case of the bay men. The Colonel replied that the newspaper men did tell the truth sometimes. The bay man went away in a state of collapse.

Camp Low at Sandy Hook. CAMP LOW, SANDY HOOK, N. J., Sept. 14.—The preparations of the camp seem to have made better progress to-day than during any day since the work began, and the pavilions have taken upon themselves the appearance of places of habitation The officials are experiencing difficulty in getting help. There are wanted two cooks at \$50 per month, six waiters at \$60, twenty laborers at \$50, and two first-class laundrymen at \$60. Ex-Surgeon Hamilton is still of the opinion that the camp will be ready for occupancy on Friday morning. The camp will be a brilliant affair in appearance when it is done. Its locality is a superb one. It will be lighted by electricity, and all night long it will be kept well illuminated. The scene from the beach will be one which it will be worth penters and fifty additional laborers arrived, and were put to work under the direction of Superintendent of Constructhe state-rooms, in the three main pavillions began this morning. The rooms will cozy and comfortable as any sould desire under the circumstances.

## AFRAID OF THE DISEASE. Consul Barnes Doesn't Want to Go to His Post at Chemnitz, Germany. Special to the Indianapolis Journal.

WASHINGTON, Sept. 14,-John A. Barnes, of Decatur, Ill., the newly-appointed United States consul to Chemnitz, Germany, has been in a peck of trouble for some days in New York and has finally appealed to the Department of State for help. Barnes was due to sail for his post of official duty on the 1st of September and secured his berth on the Normannia. When the cholera epidemic broke out the time for his leave-taking was extended twenty days, upon his own request. As that time is now drawing to a close he applied again for a further extension of thirty days, This request was denied by acting Secretary Adee. Consul Barnes is unwilling to go abroad with his family, in view of the prevailing epidemic, and he is now appealing to his friends to urge the State Department not to hurry him away to cholera, and not to cut off his official head if he does not obey the mandate to depart for Chemnitz. First Controller Matthews was at the department, to-day, trying to assist Barnes in his dilemma. Barnes writes from New York that the present consul at Chemnitz is a Democrat, and in view of the strict quarantine he could not get away from Germany, and therefore he would just as well remain at the post.

Immigrants Halted at the Indiana Line. CHICAGO, Sept. 14.—Immigrants from two Hamburg ships reached Chicago to-day. A rigid investigation failed to disclose evidence of cholera infection, and the passengers were allowed to proceed to their destinations. They carried a bill of health signed by United States Marine Surgeon Wheeler, certifying that an inspection in New York harbor satisfied the authorities that cholera was not among the passengers. Dr. Montgomery, of the city health office, met the train on which the immigrants game, at the State line, and examined them before allowing them to enter the city. The passengers were from a half dozen Steamers, among them the Siavonia and Kaiser Wilhelm, from Hamburg, and the Dubbledam, from Rotterdam.

Ohio and Cincinnati Will Quarantine. CINCINNATI, Sept. 14.—The news of Asiatic cholera in New York set the health officer of Cincinnati, Dr. Pendergast, to devising a strict quarantine for Cincinnati. He gave directions for the preparation of a cholera hospital. The State Board of Health, he said, would make a close quarantine of the State of Obio, but, in addition to that, he proposes to send out sanitary inspectors to meet all incoming trains, and prevent the arrival of immigrants or of any infected material. If necessary, he says, he will surround the city the a cordon of sanitary guards to protect the citizens from the invasion of the chol-

Detroit Wants Immigration Suspended. DETROIT, Sept. 14.—The City Council has adopted the following resolution:

Resolved, That, in view of the impending danger to the whole country by reason of the pear approach of Asiatic cholera, his Honor, the Mayor, be requested to ask the President of the United States, in behalf of the city of Detroit, to assume and exercise the authority to prohibit immigration from foreign countries and Canada for at least ninety days. In answer to latters from Mayor Pingree

of this city, the mayors, of Chicago, Mil-wankee, Cleveland, Toledo, Duinth and several Michigan cities, have promised to make the same request of the President.

Supposed Case at Chicago, CHICAGO, Sept. 14.-It was reported, tonight, that a sailor has arrived to-day from Canada, and was taken to his home on West Jackson street suffering from cholera. The health officers say they know nothing of the case.

## HAMBURG'S MORTALITY.

Most of the Victims Among Half-Starved Women and Children-Decrease in Cases. Special to the Indianapolis Journal.

HAMBURG, Sept. 14.—There were 669 fresh cases of cholers in this city to-day, fortyone fewer than yesterday and about one bundred fewer than the daily average for two weeks before. The deaths numbered 203, twenty-four fewer than yesterday. The interments numbered 314. In the cholera hospitals and barracks 3,912 patients are under treatment. The mortality 18 mostly among half-starved women and children from the poorest quarters of the city. Among the families of small tradesmen the mortality is almost nil, and it is believed that in the better parts of the city proper the infection has been practi-

cally stamped out. About a hundred fugutives returned to the city last night and to-day, and many more are expected before the end of the week. The announcement in the newspapers that the central part of the city is almost free from the disease has encouraged many persons who had not left their doors for many weeks to come out and shop in the business parts of the city. The loss to the business interests is estimated to amount to 40,000,000 marks. The larger houses have been saved from failure by the accommodation of banks, and will have no difficulty in opening again, but many of the smaller concerns will, no doubt, announce their inability to resume business.

## JUST LISTEN TO THEM.

their destination by rail. There is great | The deaths occurring in the lower bay of New York are not all from cholers. Whether or not, most of them must be directly ascribed to the plague of quarantine. This is the way to manufacture pestilences officially. The worst aspect of the whole matter is the evidence that I)emocratic authority cannot be trusted to keep its head in a crisis, even if it can be trusted to keep honesty.

The Daily Telegraph says: "The Fire islanders may have been pursuing a prudent policy, but practically they were outraging the very name of humanity. All of these scandals might have been avoided had the Governor of New York sent a suf-

ficient body of troops to the scene."

The Times says: "The Fire island trouble is a disgraceful affair. Reasoning and appeals alike were wasted upon the stolid cowardice of the people. The incident affords singular testimony to the cruelty and folly of which civilized man is capable under the influence of panic."

The Morning Post says: "It is quite natural for America to desire to keep cholera at arm's length. Asiatic cholera has never before invaded America. It has, therefore, the additional terror of novelty. The disease might also imperil the success of the Chicago world's fair by lying dormant during the winter and bursting out with vigor next summer, with the ex-York rookeries. In short, there is something to excuse, though not to justify, the attitude of the people of Islip."

The News says: "There was no inten-tional barbarity in the treatment of the passengers on the Normannia—only muddle-headed incapacity and ignorance." The St. James Gazette says: "The cruel and inhuman treatment of the passengers of the Normannia by the people of Fire island seriously reflects on the American form of administration."

Postal Clerke Adjourn. Sr. Louis, Sept. 14.-At this morning's session of the postal clerks' convention the bill now before Congress governing classification was taken up and discussed, with the object of ascertaining whether it would be necessary to make any additions. It was decided that, with a few unimportant changes, the measures proposed were satisfactory. The question of a board of promotion at large postoffices was considered and recommended. After making a few unimportant alterations in the constitution, the following officers were elected: Benjamin Parkburst, Washington, president; George Plummer, Indianapolis, first vice-president; Benedict Lovey, St. Louis, second vice-president; S. F. Redding, Fort Smith, third vice-president; C. R. Slusser, Denver. secretary. The convention then adjourned.

The Choctaw Political Trouble.

St. Louis, Sept. 14.—The political trouble in Indian Territory is thought to be ended for the present. Governor Jones, of the Choctaws, held a conference with both factions at McAlester, and an agreement was reached to suspend hostilities and abide by the official count of the election returns in October. A telegram was received by Governor Jones stating that Sheriff Perry's house, six miles from Hartshorn, was surrounded by thirty armed men in an attempt to take his life. A messenger was dispatched on horseback to inform them, that peace had been restored, but it is feared that he will reach there too late. If such be the case it will renew hostilities and necessitate the calling out of the

Vestibule Train Wrecked.

Special to the Indianapolis Journal. STAUNTON, Va., Sept. 14.-The northbound vestibule limited train, No. 6, on the Shenandoah Valley branch of the Norfolk & Western road, was derailed, this morning, by running into a deposit of about six inches of sand and pebbles washed up on the rails by the heavy rains. The entire train, with the exception of two sleepers, left the track. Conductor John Updegraff was so badly scalded by escaping steam that his recovery is doubtfut. The engineer was found crushed to death beneath his engine. Fireman Martin Popes was killed. Not a passenger was killed, and but three

were injured. What a "Cut" of Railway Cars Did. COLUMBUS, O., Sept. 14.-A cut of rail-road cars at the Union Station struck a sagged wire stay rope of a high derrick, causing it to fall on a mass of wires, including a neavily charged street-car trolley wire, which burned the telephone, fire-alarm and police switch-boards out and stopped all of the street cars. Two sixty-feet telegraph poles were broken and William MacLaughlin was killed by being thrown from the top of one them. The point of interest is the complications of danger and the delays arising from the stoppage of a large electric business by means of overhead wires.

The Bi-Chloride of Gold Cinb.

Special to the Indianapolis Journal. DWIGHT, Sept. 14.-The second day of the Bi-chloride of Gold Club convention passed without anything of consequence happening. At the afternoon session the question of the next convention was discussed. The different cities interested, Denver, New York and Cincinnati, had their advocates, who presented the advantages of their favorites. Cincinnati won the victory on the second ballot. Tomorrow will be the most important day of the convention.

A Marquis Wounded by a Baron. THE HAGUE, Sept. 14 .- Baron Von Gartner-Griebenow, secretary of the German legation here, and Marquis De Valladareo, secretary of the Spanish legation, became involved in a quarrel a few days ago, with the result that a challenge to fight a duel was passed and accepted. TROTTING AT ST. JOSEPH. The Gray Gelding Jack Crowds Lobasco to

a Record-Breaking Feat. St. Joseph, Mo., Sept. 14.-To-day was inaugurated the fall race meeting here and record breaking was the rule. The St. Joseph Fair Association put up big purses and it brought in the best horses in the West. The stallion race record was broken by Lobasco in the free-for-all trot. Jack was driven by Budd Doble and Lobasco by McHenry. In the first heat Lobasco acted badly, but in the second settled down and tied his record of 2:1114. In the third heat the time was reduced to 2:10% and the one thousand people were wild, and McHenry was carried around on their shoulders and presented with a magnificent floral offering. Lobasco was brought before the judges' stand and a magnificent floral horse-shoe placed about his neck, after which his groom was obliged to lead the stallion up and down the track. This performance of Lobasco gives him the stallion record for one, two and three heats for stallions. To-morrow Nancy Hanks will be driven by Doble against her 2:054 record. Summaries:

DEMOCRACY'S DOUBLE GAME

Cleveland Has Read the Handwriting on the Wall and Has Taken Alarm.

He Will Build a Protection Platform for Use in Manufacturing Districts and Let Others Talk "Tariff for Revenue Unly."

GROVER FACES ABOUT. He Thinks the Democratic Tariff Plank Is

Sure to Bring Defeat. New York, Sept. 14 .- The Herald says: 'Mr. Cleveland, in his letter of acceptance, intends, it is said, to depart from a strict interpretation of the tariff plank of the platform adopted at Chipago, and to appeal to the country on a carefully prepared modification of it. I hear that much correspondence is going back and forth between the Democratic national headquarters and Gray Gables about the matter. What Mr. Cleveland is understood to object to particularly is the sentence in the platform:

"We declare it to be a fundamental principle of the Democratic party that the federal govern-ment has no constitutional power to impose and collect tariff duties, except for the purpose of revenue only, and we demand that the collection of such taxes shall be limited to the necessities

"This utterance was not satisfactory to Mr. Cleveland at the time of its adoption. It is a part of the substitute inserted by a combination of the extreme opponents of a tariff and Mr. Cleveland's ill-wishers who wanted to weigh him down. He will meet it on the line of his speech in Madison Square Garden, July 21, replying to the official notification of his nomination, in which he complained of the inequality and unfairness of the tariff laws now in force. I was told at the Democratic national headquarters, yesterday, that Mr. Cleveland will discuss at length and compare the difference between foreign and domestic wages, showing that they are not corresponding as great as the difference in the prices of commodities. The letter will not be made public until the latter part of next week, and perhaps not until the week following. In about two weeks Mr. Cleveland will close up Gray Gables, and return

Democrats Try to Console Themselves Over "Snowed-Under" Defeats at the Polls, NEW YORK, Sept. 14. The Democratic national committee, under the signatures of William F. Harrity and Don M. Dickinson, has issued the following address: To the People of the United States: .

The Democratic national committee congratulates the country on the result of the recent State elections in Maine, Vermont and Arkansas. In Arkansas the combined opposition, after so many extravagant claims, fell short by over thirty thousand of the vote of the Democracy alone. This has brought dismay to the combi-nations in the South and its manipulators in the

In Maine and Vermont the contest was conducted distinctly on national issues. The Republican managers appealed for votes in these States on the ground that "the size of the pluralities would exert a great moral influence on the campaign in other States," and that the poll would be "practically our vote for President." Similar appeals summoned to their aid ail the potent resources of their national organization, with its exhaustless treasury and its splendid equipment of orators of national fame. With every favoring force at their command, except public opinion; with no organization opposed, save those made up within the States by a minority party which has been out of power for a genera-tion, and which was unaided from without, the campaign of our adversaries for a triumphant test vote in these States, so carefully planned, and so thoroughly and forcefully executed, has ended in a conspicuous disaster. Our friends everywhere are entitled to take fresh courage from these results. They mean that the strong tendency of public senti-

ment is with the Democracy, and that the people of the country are prepared to enforce rather than reverse the verdict which they rendered in 1890. Scene in a Democratic Convention. I RENTON, N. J., Sept. 14.-The Demo-

eratic State convention met here to-day. When the roll was called for nominations for Governor, Judge Carrow, of Camden, nominated Judge Werts. Senator Winfield) seconded Werts's nomination. During his speech some one from Hudson shouted: "Are you trying to keep your job, Charlief' to which, like lightning, he retorted: "I did not know there were so many from Hudson county out of jail."

The scene that followed beggare description. Hudson rose en masse and shricked that it was insulted and would hear the orator no more. Finally Chairman Mc-Donald, also of Hudson, prevailed on the crowd to subside, saying they would have an opportunity to reply. When Winfield finished, Corporation Counsel Edwards, of Jersey City, arose and in a bitter speech referred to Winfield as the recreat son of Hudson. Edwards was so hooted that his speech could not be followed. It was broken with cheers for Werts time and again. He tried to read Werte's letter declining to be a candidate, but the jeers from all over the theater smothered his voice. Werts was nominated.

Queer Move of Texas Republicans. FORT WORTH, Tex., Sept. 14.-Republicans of Texas, if they follow the mandates of their State convention, will vote for a bolting Democrat. A platform was adopted which declares allegiance to the principles of the national Republican platform and approves the renomination of Harrison, pledging to him the solid vote of the Republican party of Texas. A supplementary proposition was then taken upthe question of nominating a State ticket. The committee report arging the inadvisability of nominating a State ticket was presented, and without much discussion a vote was taken on a motion to abandon a State ticket and to recommend to the Republicans of Texas that they support George Clark, the contesting Democratic candidate for Governor. The vote on the proposition resulted 569 to 179, and so it was decided that Texas Republicans should vote for a Democrat for Governor.

Myron W. Reed Nominated by Democrats, DENVER, Col., Sept. 14.-The First congressional district Democratic convention was held here to-day. Rev. Myron W. Reed, the People's party nominee for Congress, was nominated by acclamation. When the matter of appointing a committee on resolutions came, a split occurred, the Cleveland Democrata bolting. They desired the appointment of such a committee, while the Weaver Democrats would not permit it. The bolting faction called another convention, and, after indorsing Reed's nomination, adopted resolutions pledging adherence to the Democratic faith and principles.

GOOD WORK IN FAYETTE.

Meetings Held Every Night in the Week and Large Crowds Attending. Special to the Irdianapolis Journal.

CONNERSVILLE, Ind., Sept. 14.-Fayette county Republicans are having a series of township meetings this week, which are bringing out good crowds. Monday evening a large meeting at Columbia was addressed by Hon. A. C. Lindemuth, of Richmond, candidate for joint Representative of the counties of Wayne and Fayette, and by Hon. L. G. Rothschild, of Indianapolis, and Hon. 9. H. Glaypool, of this city. Tuesday night Messrs. Lindemuth and Claypool spoke to the citizens of Harrisburg and vicinity, and to-night one of the very best meetings of the week, held at Bentonville, was addressed by the same men. Meetings will be held every night this week. The county is well organized.

Touched Up Mr. Cooper,

Special to the Indianapolis Journal. ELLETTSVILLE, Ind., Sept. 14.—Capt. John Worrell, of Hendricks county, candidate for Congress on the Republican ticket in the Fifth district against the Hon. George W. Cooper, of Columbus, spoke for two hours here last night, in the G. A. R. Hall. The Captain discussed the points of tariff, the State debt and new tax law, and closed with a review of Mr. Cooper's persecutions of Commissioner Raum, and in so doing made it very clear that the present Representative from the Fifth district is no friend to the boys who wore the blue. Twineham's Prospects Good.

Special to the Indianapolis Journal. MOUNT VERNON, Ind., Sept. 14.-Hon. A. H. Twineham has filled aix appointments in Posey county, the last being in this city to-night. His meetings have been well attended and will be truitful of good to the Republican party. He spoke here to-night and made a fine impression, receiving round after round of applause as he made and clinched his points. His prospects are good for reducing the Democratic majority about two hundred in old Possy, and of coming out winner in the First district.

Capt. Dodge in St. Joseph County. Special to the Indianapolis Journal. SOUTH BEND, Ind., Sept. 14.—The work in St. Joseph county and this section of the State by the Republicans is certainly of a commendable character. Meetings are held at different points throughout the county every few evenings. Throughout the district Capt. Joseph S. Dodge, the candidate for Congress, is making many new friends and being cordially and warm-

Corn May Be Nipped by Jack Frost. Special to the Indianapolis Journal.

CHICAGO, Sept. 14.—Reports from points in Iowa, Nebraska and Missouri indicate that while last night's frost was quite general throughout the corn belt, the crop was not damaged to an alarming extent. There is prospect, however, of more severe frost to-night, which may cause serious injury to the corn.

early part of last night with nearly 1,000 colored people, of whom about 200 were about to take the train for Lexington, Ky., where a fair given by colored people is in progress. The others were there to see their friends leave, and all were enjoying a very social time when suddenly there developed a great excitement in the space between the station and the tunuel entrance. Several officers were seen struggling with a young negro, and two or three revolvers were gleaming in the air. The confusion was due to an effort to arrest Will McAfee, who struck special officer Smith, whose station is one of the colored Baptist Churches, in the very presence of the officers. Smith. who knew that there is warrant out for Edward McAtee, brother of Will, for disturbing the meeting. had seen the former in the crowd and was pointing him out to officers Smith and Koons. This angered Will McAfee, who "jabbed" Smith in the nose with a very smart blow. Patrolman Koons caught his arm and placed him under arrest. McAfee resisted and struck twice at the officer, from whom, in the latter's attempt to ward off the blows, he sneceeded in breaking away. Patrolman Smith attempted to seize him, but was kicked in the abdomen for his pains. At this moment Ed McAfee shoved a revolver into Smith's face, and Koons quickly covered him with his revolver to protect his fellowofficer. Will McAfee then broke and ran north on Illinois street. The patrolmen followed, with a crowd yelling "Kill him, shoot him," at their heels. The fugitive turned and threw a stone at Koons, but the latter dodged He managed, however, to escape by turning east on Georgia street. The other McAfee siso escaped. In the pursuit two shots were fired, but nobody was hurt, and no one could tell who fired the shots. Both the offenders will be arrested on sight.

Theaters Having Good Houses This Week and Exp. ct Better Ones Next.

"Captain Herne, U. S. A.," continues to please the audiences at English's by its beautiful scenery and strong interest. It will run the rest of the week, with a matinee Saturday.

At the Park Theater yesterday the Baidwin-Melville company gave as a change of bill "Michael Strogoff," which will be re-

peated at both performances to-day. So great and continuous has been the success of Mr. Joseph Arthur's play "Blue Jeans," which is to be presented at the Grand all next week, that he has indefinitely postponed the production of his new Hoosier drama "The Corneracker." Everywhere "Blue Jeans" is played it fills the theaters at every performance. It will be given the original production here, with a cast that includes among others Miss Laura Burt and Miss Jennie Goldthwaite, of this city. The sale of seats begins this morning, and a large demand may be auticipated, as "Blue Jeans" is very popular

Nat C. Goodwin is playing this week at the new Henrietta Theater in Columbus, O. The Journal of that city says that his new play, "A Gilded Fool," is by far the most original and brightest comedy he has ever had and fits him like a glove. It was written by Henry Guy Carleton, the wellknown humorous writer, and the author of several successful plays. On account of the hit "A Gilded Fool" has made it will be presented the first four nights of Mr. Goodwin's engagement next week at English's, and the advance sale will begin to-day. Judging by its patronage so far this week, the Riley & Woods combination will play one of the most successful engagements of its career when its present stand at the new Empire closes. Yesterday, at both performances, there was no falling off in the attendance, which has been large. One of the most interesting features of

stage caste is said to be the singing and dancing of Master La Martine and little Helen in "One of the Bravest," which is to play at the Empire Theater next week. Each is only a little over six years of age, and in the East papers have spoken of the juvenile actors as phenomenally precocious.

STOPPED THE FIGHT.

Scheme for a Little Private "Mill" Stopped by the Police.

A nice little scheme for fun was nipped in the bud last night. A pair of local "pugs" had arrangements all made to give a private set-to on the Park Theater stage for the benefit of their friends, but the proposed mill was stopped before begun by Sergeant LaPorte, who had heard of it. It was to have taken place at 12 o'clock, but man only proposes,
